To,
Mr. Hanmantrao Gaikwad
Founder, Chairman & Managing Director
BVG India Limited

Subject: ESG & Sustainability Dashboard: A Ready-to-Deploy Opportunity for BVG Group

India has entered a regulatory cycle that makes ESG reporting mandatory for its largest companies and increasingly relevant to bank funding decisions, while almost no Indian player offers a ready-to-deploy platform for it. We have built that platform, and believe BVG Group, with its scale and its existing relationships across India's largest corporates and government bodies, is best placed to take it to market first.

The Opportunity, in Numbers

- **Regulation:** SEBI's BRSR mandate already covers India's top 1,000 listed companies, with third-party assurance widening every year, reaching all 1,000 by FY2026-27. Banks and rating agencies (RBI-directed lenders, CRISIL) are now factoring ESG scores into credit decisions.
- **India market:** India's ESG & sustainability investing ecosystem is projected to grow from about \$1.2 billion (2024) to over \$4 billion (roughly ₹35,000 crore) by 2030, at 23%+ CAGR. The narrower ESG consulting/reporting slice alone is separately estimated to grow well ahead of India's GDP growth rate through 2030.
- **International market:** Globally, ESG advisory spend is projected to reach nearly \$60 billion by 2030, and ESG reporting-software spend is growing at 20%+ CAGR, a category still wide open outside a handful of Western platforms.
- **Why now, why BVG:** many of BVG's existing marquee clients, including Volkswagen, Hyundai, Fiat, ABB and Hindustan Unilever, already report ESG at their global parent level and are extending that standard to their India operations today. That demand already sits inside BVG's own account book. And as BVG pursues its own stated ambition of scaling to 100 countries by 2035, this platform can travel with it beyond India.

The Ask

The platform is built and can be piloted immediately with two or three BVG anchor clients already required to report under BRSR. We request 30 minutes to demonstrate it live and discuss a joint go-to-market under the BVG name.

Sincerely yours,

Dr. Makarand Wagh
